

# THE PERRYSCOPE®

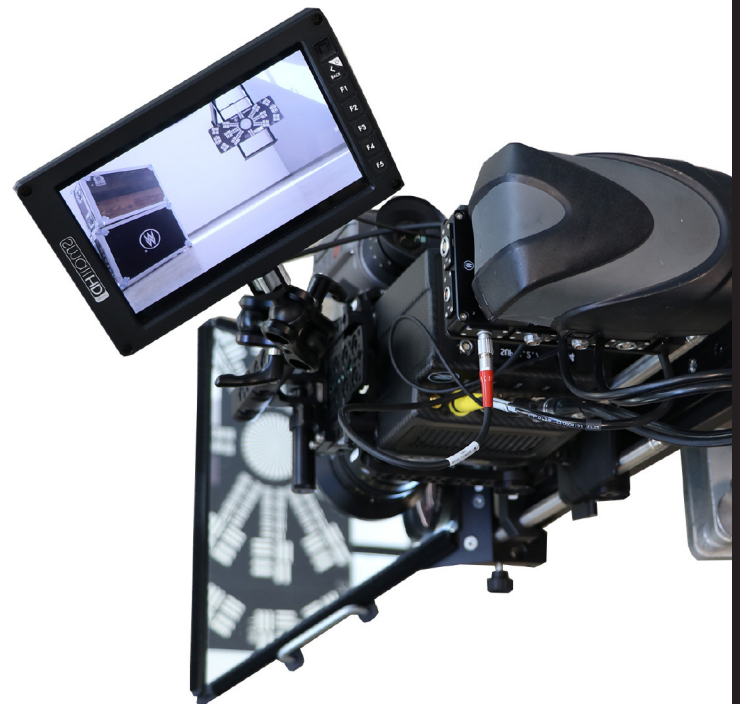

The Perryscope is a unique patented design exclusive to William F. White International. The low angle mirror optical device sits at the perfect angle to the camera to achieve extreme low angle shots.

## FEATURES

- Accepts lenses as wide as 18mm
- Achieves 100% lenses resolution
- No distortion
- No light loss
- No colour shift

*"Perryscope is one of those inventions that makes you wonder how you could have worked without it. It's so simple to use, easy to install and really effective. It's inspiring. I want to carry it on every shoot day."*
